SUMMARY

BCA graduate with hands-on project experience in Python, web development, and AI tools. Built a working AI video assistant as a capstone project and two full-stack web applications during coursework. Comfortable picking up new frameworks quickly and working through problems independently.

EDUCATION

Bachelor of Computer Applications (BCA), Lowry Adventist College, Bangalore Affiliated with Bangalore North University. CGPA: 8.5	2023 - 2026
Higher Secondary Education, S D A Higher Secondary School, Nuzvid Scored 65%.	2021 - 2023
Secondary Education (SSC), S D A Higher Secondary School, Nuzvid Scored 85%.	2008 - 2021

PROJECTS

AI Video Assistant (Final-Year Project)

Python, LangChain, ChromaDB, Mistral AI, OpenAI Whisper, Streamlit

- Built a tool that transcribes video audio with Whisper and lets users ask questions about the video content.
- Used ChromaDB for storing and searching text embeddings so answers pull from the right part of the transcript.
- Built the interface in Streamlit so non-technical users could upload a video and start asking questions right away.

Safe-Travels - Travel Booking Web App

Django, Razorpay

- Built a site to search and compare bus, train, and flight options in one place.
- Added seat and fare availability along with Razorpay integration for online payments.

Dasar Mobiles - Mobile Booking Web App

React, Django REST Framework

- Built the front end in React and connected it to a Django REST API for bookings and availability.
- Handled the booking flow end-to-end, from browsing listings to confirming a booking.

SKILLS

Programming Languages: Python, Java, C, JavaScript, HTML, CSS

Frameworks and Libraries: React, Django, Node.js, PyTorch

Databases: MySQL, SQLite, MongoDB

AI and ML Tools: LangChain, ChromaDB, OpenAI Whisper, Mistral AI, Gemini API

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Postman

Soft Skills: Communication, Problem Solving, Teamwork, Time Management, Adaptability

ACHIEVEMENTS

- 1st Place, Web Designing Competition
- 2nd Place, Blind Coding Competition

CERTIFICATIONS

- Introduction to Generative AI - Google Cloud (Oct 2025)
- Python Django - Infosys Springboard (Jul 2025)
- Python By Example - Infosys Springboard (May 2025)
- Python for Beginners - SimpliLearn (Oct 2024)
- AWS For Beginners - Great Learning (Jun 2024)
